

The Academy of Art, Creativity and Consciousness offers an in-depth training in Transformative Arts. Our pioneering program cultivates the unique capacity of the Arts to awaken, uplift and transform consciousness.

OUR APPROACH

The Transformative Arts Method™ uses multiple artistic and creative modalities to engage the full spectrum of human intelligence and ways of knowing. Richly informative and inspirational content is brought to life through experiential immersion in the studio.

Our method awakens intuitive soul wisdom, ignites our creative capacities and inspires their full expression. Spirit Inspired and Soul Centered, we draw wisdom from the universal teachings found within all spiritual traditions. Conjoining frontier discoveries in science and psychology with enduring perennial wisdom, our curriculum engages the multi-dimensional nature of human beings, inclusive of body, mind, heart, soul & spirit.

THE PROGRAM

The Certification Program is comprised of **TWO LEVELS**; a foundation and a teacher training.

1 The foundation level is called **INNER JOURNEY**. It stands alone as a lovingly guided personal voyage of healing, self-discovery and self-expression. The Inner Journey provides deep structure support for profound inner exploration and guides you to expanded states of freedom and unconditional joy.

2 The **TEACHER TRAINING** is a closely mentored training in the Transformative Arts Method™. You will learn how to spark and guide creative process and how to midwife the transformative process in others. Students are trained to lead workshops and to facilitate group process in a variety of settings.

Prerequisite: The **INNER JOURNEY** foundation is a prerequisite for the **TEACHER TRAINING**, providing a vivid experience of the transformative power of this work.

THE CURRICULUM

1

The **INNER JOURNEY** nurtures self-discovery, healing and spiritual growth. A variety of courses expose students to the many modalities of the arts (painting, sculpture, music, dance, theater, etc.) and to the principles of art, creativity and consciousness.

Course Requirements:

- Painting from the Heart and Soul
- Free Your Creative Spirit
- Centering: Mandala, Yantra, and Labyrinth
- Spirit, Art & Nature
- Healing Journey
- Personal Quest Final Project
- Two Private sessions

2

The Transformative Arts **TEACHER TRAINING** prepares you to facilitate the Transformative Arts Method™. Students learn to facilitate groups, to serve as a 'creativity coach' and to integrate Intuitive Creative Process into their professional practices. This in-depth training is game-changing for careers in teaching, healing arts, counseling, life coaching, organizational development, spiritual leadership and creative professions.

Course Requirements:

- Science, Art & Spirit: The Quantum Powers of Creation
- Graduate Teaching Seminar
- CHOICE of FOCUS Courses (*see below*)
- Apprenticeship as a Course Assistant
- Student Teaching
- Two Private sessions
- Final Teaching Project

CHOICE of FOCUS: Our training is tailored to you. How will YOU use the training you receive? We'll work together to clarify your path and thus guide your training to best prepare you for the fulfillment of your unique work in the world.

Focus courses individualize your program. Choose from elective courses such as dance & movement, vibrational healing through sound & color, community building through the arts, art as a spiritual practice, etc. Your focus might also be a specific niche such as working with children or seniors. Studies through affiliate schools may also be approved.

Our **TEACHER TRAINING** program is unique in offering extensive mentoring of the facilitation process. We use the model of midwifery, understanding the work to be one of knowledge but also cultivated wisdom and subtle attunement. Students are also supported after completion of the certificate, and are welcomed into a community of graduates.

Students assist in courses onsite and online. Student teaching allows you to practice facilitation within a safe and supportive environment. You'll receive support and feedback as you refine your capacities. Some students engage the apprenticeship portion longer than others as it is based on individual needs. The director and the student together decide when the apprenticeship feels complete.

The Graduate Teaching Seminar provides principles and practices that create a safe, nurturing space and enable skillful guidance of a powerful transformative creative process.

Private Sessions offer the opportunity to receive support and guidance in your own transformative process.

The Final Teaching Project represents the culmination of the apprenticeship process. Students learn to plan, market and offer their own course. They receive tangible support, guidance and refinement in developing their own unique style.

PROGRAM PRICING

FULL CERTIFICATION **\$5400**

Tuition includes fees for all courses, mentoring, administrative costs, online and ongoing support + *art materials and studio fees for onsite courses*. Includes course fees, mentoring, art materials and studio costs.

or \$4,800 with accommodations + shared use of kitchen

THE SETTING

A Life Changing Experience in the Heart of Italy

Our spacious sky lit gallery and inspiring art studio opens out to panoramic views of the glorious Umbrian hills. The Academy of Art, Creativity and Consciousness is a jewel in the land of beauty- Bella Italia! Experience la dolce vita- the heart opening 'sweet life' found in Italy along with renown treasures of art antiquity, culture and spirituality. Our Center is across the street from Ananda- one of Europe's foremost Yoga and Meditation retreat centers and near Assisi, the International City of Peace and birthplace of St. Francis of Assisi.

2022 Online

With the addition of online components, our program is becoming increasingly 'hybrid'. It is now possible to do some of the required courses online. This year you both 'Painting from the Heart and Soul' and 'Free Your Creative Spirit' will be offered online.

“

“The Transformative Arts program is the deepest, most profound work I've ever experienced. Discovering your own Self, recovering your own Being and healing your heart—all this while in a joyful state of childlike creative flow. Dana holds a space that makes it safe and easy for every one of us to blossom.”

– Certification Student
